

Carpe Diem BLUEWATER 400

Carpe Diem is a Bluewater 400 Flush Deck version and was launched in 1995. She features a 3 cabin layout, forward utility / storage cabin, large saloon with seating for 10, single aft head and wet locker, good engine and machinery access, galley located close to companionway. Her wide expansive deck is very easy to move around on, and when heeled the deck camber is almost level.

Cruising sailors recognised these highly desirable features as well high ballast ratio for quicker and more positive righting, fine bow that cuts through choppy seas and has a more comfortable motion out to sea, canoe water body and longish keel for exceptional pointing ability as well high freeboard keeps crew dryer and safer.

Carpe Diem has deep load carrying bilges to carry long range water and fuel tanks, integrally moulded keel for ultimate safety in case of collision, and skeg hung rudder for extra strength and rudder protection.

All these features as well massive construction compared to production boats gives her captain and crew supreme confidence in all conditions. Carpe Diem makes an ideal live aboard cruising yacht ready to go and capable of cruising the world. Carpe Diem is based in Mooloolaba, QLD.
